Improving Health in Afghanistan

The Zamani Foundation works around the world, giving it the means to actively boost the health and safety of communities in many of those locations.

Improving Health for Families in Afghanistan

Khatera Sulaimankhel – Hip Operation
Said Mujaba Hussain – Jaw-Bone Operation
Mohammad Saboor – Abdominal Operation
Baby Cobra – Harelip Operation
Baby Hayyan – Heart Operation

Feroz Khamosh – Heart Operation
Haji Abdul Khaliq – Heart Operation
Mohammad Ayoub – Heart Operations
Anwar Akbar – Ocular Operation
Ekrambibbi Hamidi – Ocular Operation
Sananullah Azimi – Ocular Operation

“Global Health Initiatives through the Zamani Foundation help people all over the world over-come pressing medical needs enabling them to live long, healthy lives.”

Feroz Khamosh, had two blocked arteries in his heart, one 90% blocked and the other 60% blocked. The Zamani Foundation funded Feroz Khamosh's medical procedures at the Amiri Medical Center, which specializes in these operations, which were successful. Mr. Feroz fully recovered.

Anwar, a twelve-year-old boy, needed surgery for both of his eyes to correct his vision. The Zamani Foundation funded the three surgeries at the Shefa Hospital in Pakistan.

Cobra, a six-month-old baby needed a harelip operation at the Nijrabi Hospital in Kabul. The Zamani Foundation funded the operation to improve baby Cobra's quality of life, so she can show the world her beautiful smile.
