

Shamsa Children's Village

# Access to a Great Education Initiative

School Supplies for 130 Kids

The Zamani Foundation continue their support of the Shamsa Children's Village as representatives visited the Shamsa Children's Village in support of the Access to a Great Education Initiative.

---

“The Zamani Foundation visited the Shamsa Children’s Village to provide school supplies to the children. ”

The Zamani Foundation takes an active role in support to the Shamsa Children’s Village by visiting the orphanage to get to know the students and staff, and the needs of the program. School supplies support the administration as well as the school program for the children.

“The support to this orphanage is way to ensure that each child becomes part of a 'family' of nine 'brothers and sisters' of all ages and an adoptive mother.”

They each live in a private home at the village designed to support large families with many children. While Shamsa has a capacity to care for 256 children, they currently care for about 130 children. The Zamani Foundation provides on-going support through its Street Kids Initiative to help the Shamsa Children's Village reach their care capacity.

” Education breeds confidence.  
Confidence breeds hope.  
Hope breeds peace.
